

Dan Signore

I have been fortunate enough to find a job I enjoy. My degree is in Psychology and Education from UMass. I have a lot of experience working with kids in both academic and recreational settings. I love working with kids because it allows me to embrace my outgoing and energetic personality. I feel like every new situation I put myself in is an opportunity to learn from those around me and my experience with the Children's Center thus far has been no different. These are great kids and I hope I can offer them as many fun-learning experiences as I know they will offer me.
